### PROJECTS

#### Ethnic Eats / [Website](#) | [Repository](#)

*June 2019*

Due to my love for food and my role in the food industry, I proposed this full-stack application to my group. The website is designed to search recipes by pulling data from an API given preferred ethnicity and ingredient. My role in this project included writing javascript for, and developing, the UI/UX as well as developing the recipe cards themselves.

#### Literary Fitness / [Website](#) | [Repository](#)

*August 2019*

A full-stack website my group designed for users to track their book progress. When logged in, users can update book progress and add new books or remove books they've completed. I primarily worked on the front-end for this website, developing the HTML and CSS for the UI/UX. I also developed routes for pulling book data.

#### Racquet Rally / [Website](#) | [Repository](#)

*November 2019*

This full-stack website was inspired by my love for tennis. My team and I designed a web application for users to favorite courts all around Austin as well as reach out to find new players who also play at the same court(s). I worked on various pages of the website's UI/UX and mapped out court details.

---

### EMPLOYMENT

#### GrubHub / Catering Partner

September 2017 - PRESENT, Austin TX

Provided companies with timely and professional catering service. Worked with companies and restaurants to ensure order proportions were accurate and food setup was efficient. Used excel spreadsheets to manage earnings, taxes, expenditures and work schedules.

NPM  
Microsoft Document  
**Microsoft Excel**  
Microsoft Powerpoint  
Microsoft Paint  
Google Docs  
Google Sheets

---

## SKILLS

Very **personable**, friendly, and easygoing. **Flexible** and willing to work with others on solutions towards a common goal.

Eager to learn new concepts and **strives to excel** in any given field of interest.

A perfectionist that values **quality** of work but will accomplish given tasks in a timely manner.

## Amazon / Logistics Partner

September 2015 - September 2017 (2 years), Austin TX

Adhered to strict timelines within the company in accordance to package deliveries. Developed a personal sorting system to ensure packages were accurately and efficiently delivered. Used excel spreadsheets to manage earnings, taxes, expenditures, and work schedules.

---

## EDUCATION

### University of Texas at Austin / Full-Stack Development

May 2019 - November 2019 (6 months), Austin TX

Received professional training in: JavaScript, HTML, CSS, jQuery, Responsive Design, Bootstrap, MySQL, APIs, JSON, React, Redux, and User Authentication.

### Austin Community College / Nursing

September 2011 - May 2013 (2 years), Austin TX

Took classes about human biology, medicine, and how pharmaceuticals affect the body. Learned to identify hundreds of drugs and their use-cases as well as possible negative drug-to-drug interactions.

### University of Texas at San Antonio / Pre-Pharmacy

September 2008 - May 2010 (2 years), San Antonio TX

Intro to pharmacy program covered the core classes including statistics and calculus to ensure accurate numbers were ascertained for not only drug distribution but also quantity of drugs in relation to a persons' anatomy.
